

New distributors and partners:

We are excited to be adding new key partners and distributors to our portfolio:

CHESHIRE SOLUTIONS

Cheshire solutions as a sales agent in Oil, gas and refining markets.

S2E as distributor in Chile in the Mining and power generation sectors.

Delta – Xero as a Partner for Fluid Filtration management.

At the recent Energy Show in Birmingham, the Delta-Xero team presented their filtration system featuring the integration of a Spectrolytic FluidInspectIR® system to monitor chemical composition. Our Chief Commercial Officer, Patrick Taylor, had the opportunity to connect with the Delta Xero team during the event.

Exciting News! Spectrolytic is delighted to announce the partnership with renowned Lubrication expert, Rafe Britton, from Lubrication Explained (YouTube) and Lubrication Experts (podcast). Rafe will now lead the business development activities for our products in the Australian market.

New products

FluidInspectIR®
PLUS

Introducing our next-generation inline system, designed to revolutionize inline Oil Condition Monitoring. With enhanced performance and seamless installation, this system elevates the standards in monitoring capabilities.

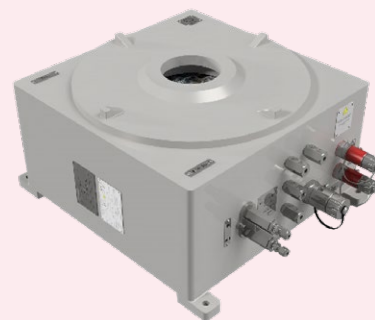

Experience a truly plug-and-play inline analyzer that drastically reduces installation operational downtime from hours to minutes. This innovation sets a new benchmark in the industry, offering unparalleled efficiency and reliability.

The FluidInspectIR® PLUS product guides the user, via the integrated display, through the system installation start-up process and provides immediate feedback and suggestions during all stages of the installation process. During standard operation of the PLUS system all oil condition parameters are shown on the display providing immediate feedback/information to the operators.

We are currently installing these in many industrial sectors (marine, power generation, metal working).

FluidInspectIR®
ATEX

Exciting news for our valued customers in the onshore, offshore, and chemical industry! Introducing the FluidInspectIR®_ATEX, a cutting-edge solution offering the advantages of inline monitoring. This innovative system features a particle counter, IR sensor for chemical composition, and viscometer, all in one.

Certified to the highest standards, including:

- II 2 GD
- Ex db IIC T6 Gb
- Ex tb IIIC T85°C Db IP6

Choose from a durable stainless steel 316L enclosure or an aluminum enclosure based on your specific needs. Upgrade your monitoring capabilities today with FluidInspectIR®_ATEX!

Rafe's role is crucial in ensuring seamless support and guidance, enhancing our global presence in Tribology and lubrication. His expertise will elevate the level of customer support provided by Spectrolytic, solidifying our position as industry leaders. Additionally, Rafe will represent the company at various events, extending his knowledge to our expanding user base.

With Rafe's exceptional reputation preceding him, his collaboration with Spectrolytic marks a significant step forward in our pursuit of excellence. Welcome aboard, Rafe!

Networking

Upcoming shows where we are exhibiting or talking

Excited to announce our 4th consecutive year exhibiting at Lubricant Expo Europe, this time in Dusseldorf from September 16-18th, 2025. Mark your calendars to join us for a whisky and engaging conversations!

Excited to announce our second exhibition at UK Metals Expo on September 10-11 at NEC Birmingham! We'll be presenting innovative measurement solutions for the metal processing industry. Looking forward to showcasing our cutting-edge systems.

We're excited to announce our return to OilDoc 2025!

Join us for an insightful presentation by our CEO, Carsten Giebeler, as he delves into the 'Value proposition & interplay of inline versus lab analysis'. Don't miss this opportunity to learn about the most comprehensive inline fluid monitoring system available.

Mark your calendars for Wednesday, 14th May 2025, from 14:00 to 15:30 in Hall 1. See you there!

Upcoming shows where you can chat with our CCO Patrick Taylor who will be visiting and doing a walk around.

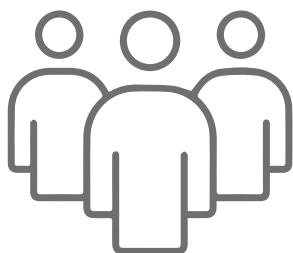

Seawork 25, 10-12th June
Southampton UK

SPE Offshore Europe,
2-5th September
Aberdeen UK

Our Team

We are delighted to have added Maria Bercu (installation support engineer) and Tyler Gibney (Software Engineering) to our expanding team.
